

# PROGRAM MERCURY

---

*Program Strategy*

TO ACHIEVE OUR COMPANY VISION

WE MUST APPLY OUR CORPORATE VALUES

**BY TRANSFORMING HOW  
WE WORK TOGETHER**

# Program Mercury Approach

*Building the foundation for XXX's digital workplace through the effective deployment of communication & collaboration technologies*

# Driving Principles

## Organize

Program Mercury organizes a set of projects around a common theme

Agility and Velocity

Apply formal change management

## Align

Incorporate T.O.S., lean, and six-sigma techniques and activities

Partner with T.O.S. at every opportunity

Leverage Executive leadership and sponsorship to drive change and engage the business at strategic opportunities

## Engage

We go where the energy is

Deploy a robust, engaged, and plugged-in champion organization

# Program Mercury

## Stream 1

### Technical Preparation

Analyze O365 Technical Environment to ensure technical readiness

Implementation and building success stories with strategic pilot groups

Long-term Technical Support Model, Strategy, and Governance

## Stream 2

### SharePoint Modernization "the purge"

Phase 1: MyXXX Homepage Refresh

Phase 2: Homepage and tech improvements | Develop HRConnect & About Us

Phase 3: New MyXXX name | About Us & HRConnect

The Purge: Remove ROT

Phase 4: Finish Public Space changes

## Stream 3

### Business Collaboration

#### Missions

Partner with the business to identify communication and collaboration obstacles that can be solved using one or many O365 applications or features.

#### Projects

Any application or feature deployment identified through our mission work will be created as a project through Stream 2.

## Stream 4

### Program Management

#### Deliverables

- Documentation and Governance
- Program Awareness and Engagement
- Goals, Metrics, and Reporting
- Mission and Project Identification and Prioritization

**COMMUNICATION FOR COMMUNITIES OF INTEREST**

## SHAREPOINT - FORMAL COLLABORATION

STRUCTURED INFORMATION FOR  
DOCUMENT SHARING AND  
ESTABLISHED TEAM COLLABORATION

## OUTLOOK - FORMAL COMMUNICATION

TRADITIONAL AND FORMAL  
INFORMATION  
AND DOCUMENT SHARING

# Established Projects

*The next set of slides provides a high-level overview of the projects that are officially started and sit under the Program Mercury umbrella*

# Yammer Enterprise Project

*Configure the Yammer Enterprise environment  
and complete four business use cases for  
Program Mercury Toolkit*

# Yammer Adoption Activities

Define what  
success  
means for  
your team

We will meet with each team to understand your specific needs and brainstorm how to measure success for your team.

Team  
awareness  
and desire  
plan

Once we define success for your team our team will create a customized adoption toolkit and success roadmap designed to educate your group of users on how to add value to their work by using Yammer.

Establish  
Yammer  
Super Stars

Establish a few Yammer Super Stars that will act as the moderators of the group. They will regularly monitor the conversations and encourage engagement using posts, answering questions, and bringing people into the conversations with mentions.

Adoption  
test run

Once we define success for your team, review your unique adoption toolkit, set expectations with your Yammer Super Stars, and begin executing your success roadmap we will start a 2-month adoption test run (Starting May 2019 - ending July 2019)

# MyXXX Homepage Refresh

*Upgrade the Intranet homepage design and functionality utilizing the modern SharePoint environment*
